

Contents of *Animal Feed Science and Technology*, Volume 97

VOL. 97 NOS. 1–2

24 MAY 2002

Ruminants

- Effect of forage conservation method, concentrate level and propylene glycol on diet digestibility, rumen fermentation, blood metabolite concentrations and nutrient utilisation of dairy cows
K.J. Shingfield, S. Jaakkola and P. Huhtanen (Jokioinen, Finland) 1
- Effect of herbage allowance on pasture utilization, regrowth and milk yield of dairy cows in early, mid and late season
P. Virkajärvi, A. Sairanen, J.I. Nousiainen (Maaninka, Finland) and H. Khalili (Jokioinen, Finland) 23
- In vitro digestibility of forages as influenced by source of inoculum (sheep rumen versus *Rusitec* fermenters) and diet of the donor sheep
M.L. Tejido, M.J. Ranilla and M.D. Carro (León, Spain) 41
- Patterns of rumen fermentation in bulls fed barley/molasses diets
A. Araba (Rabat, Morocco), F.M. Byers (Beltsville, MD, USA) and F. Guessous (Rabat, Morocco) 53
- Nutrient digestion, biohydrogenation, and fatty acid profiles in blood plasma and milk fat from lactating Holstein cows fed canola oil or canolamide
J.J. Looor, J.H. Herbein (Blacksburg, VA, USA) and T.C. Jenkins (Clemson, SC, USA) 65
- The release of cell contents of fresh rye-grass (*Lolium perenne* L.) during digestion in dairy cows: effect of the intracellular constituents, season and stage of maturity
A. Boudon, J.-L. Peyraud and P. Faverdin (St-Gilles, France) 83
- Carcass quality, meat chemical and fatty acid composition of lambs fed diets containing extruded soybeans and sunflower seeds
L. Rizzi, M. Simioli, L. Sardi and P.G. Monetti (Ozzano Emilia, Italy) 103

Short communication

- Influence of time of feeding a protein meal on diurnal patterns of amino acids in duodenal digesta protein of lactating dairy cows
P.H. Robinson (Davis, CA, USA), M. Gill (Aberdeen, UK) and J.J. Kennelly (Edmonton, Canada) 115

- Book review 123

VOL. 97 NOS. 3–4

3 JUNE 2002

Ruminants

- The effect of supplementing grass silage with soya bean meal on digestibility, in sacco degradability, rumen fermentation and methane production in sheep
A.R. Moss and D.I. Givens (Stratford-on-Avon, UK) 127

Effect of rates and extent of ruminal barley grain dry matter and starch disappearance on bloat, liver abscesses, and performance of feedlot steers P.B. Ramsey (High River, Canada), G.W. Mathison and L.A. Goonewardene (Edmonton, Canada)	145
The effect of adding an enzyme containing lactic acid bacterial inoculant to big round bale oat silage on intake, milk production and milk composition of Jersey cows R. Meeske, G.D. van der Merwe, J.F. Greyling (George, South Africa) and C.W. Cruywagen (Stellenbosch, South Africa).	159
Non-Ruminants	
Effects of removal of mucilage and enzyme or sepiolite supplement on the nutrient digestibility and metabolizable energy of a diet containing linseed in broiler chickens C. Alzueta, L.T. Ortiz, A. Rebolé, M.L. Rodríguez, C. Centeno and J. Treviño (Madrid, Spain).	169
Apparent and standardised true ileal digestibility of protein and amino acids from faba bean, lupin and pea, provided as whole seeds, dehulled or extruded in pig diets G. Mariscal-Landín, Y. Lebreton and B. Sève (Saint-Gilles, France)	183
Digestibility of high fibre diets and performance of growing Zimbabwean indigenous Mukota pigs and exotic Large White pigs fed maize based diets with graded levels of maize cobs W. Ndindana, K. Dzama, P.N.B. Ndiweni, S.M. Maswaure and M. Chimonyo (Harare, Zimbabwe)	199
Physiological and toxicological responses in rats fed aflatoxin-contaminated diet with or without sorbent materials M.A. Abdel-Wahhab, S.A. Nada and F.A. Khalil (Cairo, Egypt)	209
General topics	
The effect of sample processing on gas production profiles obtained using the pressure transducer technique R.S. Lowman (Midlothian, UK and Aberystwyth, UK), M.K. Theodorou (Aberystwyth, UK) and D. Cuddeford (Midlothian, UK)	221
Effects of patulin on rumen microbial fermentation in continuous culture fermenters M.O. Tapia (Tandil, Argentina), M.D. Stern, R.L. Koski (St. Paul, USA), A. Bach (Barcelona, Spain) and M.J. Murphy (St. Paul, USA).	239
Short communication	
Rumen escape protein in concentrate ingredients determined with the nylon bag and enzymatic techniques J.W. Cone, A.A. Kamman, A.H. van Gelder and V.A. Hindle (Lelystad, The Netherlands)	247
Contents of <i>Animal Feed Science and Technology</i>, Volume 97	255
